FROM

THE SECRETARY

TO THE HON'BLE THE RESIDENT IN MYSORE.

To

The Chief Secretary to the Government of His Highness the Maharaja of Mysore, Bangalore.

Dated Bangalore, the 8th July *1942.*

INDIAN STATE OWNED TELEPHONE EXCHANGES AND TRUNK CIRCUITS.

- - -

SIR,

I am directed to state that in connection with proposals for air raid warning system, the military authorities require a list of Telephone Exchanges owned and maintained by the Government of Mysore and also a list showing the Trunk circuits connecting these exchanges to the general Trunk Telephone system in India. I am to request that, if there is no objection, the lists asked for by the military authorities may kindly be sent at a very early date.

I have the honour to be,
Sir,
Your most obedient servant,

for SECRETARY TO THE RESIDENT.

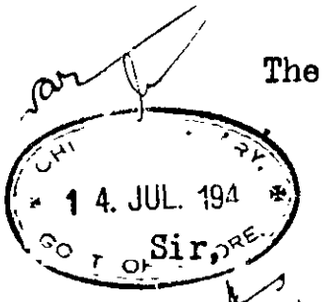
To

The Chief Secretary to the
Government of Mysore,
BANGALORE.



Sir,

Indian State owned Telephone
Exchanges & Trunk Circuits.

With reference to your letter No.173/W. dated the 10th July 1942 on the above subject, I have the honour to state that there are two Telephone Exchanges in Mysore State which are owned and operated by the Mysore Government Electrical Department. One of these is located at Bangalore and the other at Mysore. These two exchanges are connected by two trunk circuits - one being physical and the other phantom circuit. There is one telephone exchange at Kolar Gold Fields owned and operated by the Mining authorities. We have one physical trunk line between Bangalore City Exchange and Kolar Gold Fields Exchange in service.

The Bangalore City telephone exchange is connected to the Civil & Military Station telephone exchange owned and operated by the Government of India Post & Telegraph Department by 24 junction circuits consisting of 25 pairs underground, lead covered, steel armoured cable; 12 of these junction circuits are for in-coming and 12 for out-going calls. In addition to the above junction lines, there is an overhead copper line between Bangalore City exchange and C.& M.Station exchange and is used exclusively for trunk calls beyond Mysore State. The two spare pairs of wires available in the 25 pair cable are utilised for conversation

P.T.O.

between the Operators of the two exchanges. Thus it will be seen that there is only one overhead copper trunk circuit between C.& M.Station exchange and the City telephone exchange for All India Trunk connection.

I have the honour to be,
Sir,
Your most obedient servant,

General Superintendent, C.P.S.

To

The Secy. to the Resident.

Sir,

Indian State owned Telephone Exchanges and Trunk Circuits.
